

Mounting of filters

This manual describes mounting and installation of filters for FL 1010, FL 1050, FL 1100

1. Unscrew the front part from the light generator. Do the work in a dry clean environment.

2. Assemble the filter and bracket. Dont touch the dichroic glass surfaces.

3. Mount the assembled filter in the detached front part.

4. Screw the front part on to the light generator.
