

## Super Nova

---

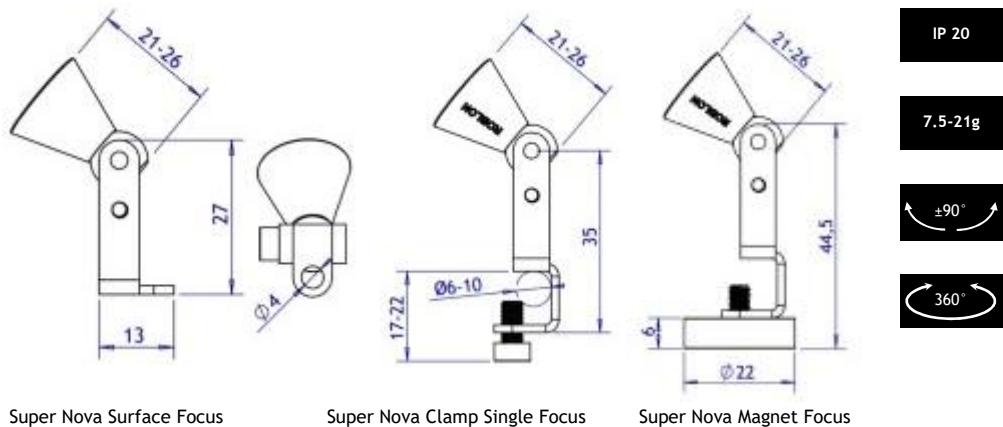

A skillful series of downlights with each a unique mounting system for accurate tilting. 360° adjustable. Tilts in many directions, some of them all around.

Newly developed mounting system lets you freely adjust and lock, without using tools. Choose wide or medium focusing beams with these uniquely small fittings. Ideal for illumination in niches and in showcases.

Super Nova: a whole new angle on showcase lighting.

Super Nova

- For indoor use / dry location
- Black finish (others on req.)
- Fibre optical system
