

## Acrylic standoff

---

---

The acrylic standoff is a star point suitable for mounting inground in concrete, rubber, pebbles, rubbles and even in grass.

Easy way of mounting upright light points in the right angle in a very discreet and elegant way.

The standoff is without metal parts and therefore corrosion resistant.

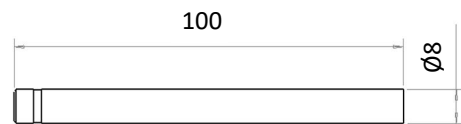

The standoff is made as a standard termination in Ø8mm x 100mm but is also available in other shapes and sizes.

The mounting embedment puck is an accessory.

## Acrylic standoff

---

- For indoor and outdoor use
- For embedding in concrete floors
- Corrosion resistant.
- 4 different fibre size  $\varnothing$ 1-1.5-2-3 mm
